Prenatal Plus

Optimal formulation of vitamins, minerals and support nutrients

DESCRIPTION

Prenatal Plus provides optimal amounts of all essential vitamins and minerals, along with added support ingredients such as the omega-3 fat DHA and herbs such a ginger and chamomile.

FUNCTIONS

Studies show that a high percentage of adults and children in North America and other developed countries consume less than the minimum daily allowance of 10 or more essential nutrients. Adequate amounts and proper balance of these nutrients are needed, not only for maintaining good health, but also for the dietary management and prevention of chronic diseases. It is generally accepted that pregnant and breastfeeding women should supplement a healthy diet with a variety of essential vitamins and minerals to ensure adequate intake for both mother and child.

INDICATIONS

Prenatal Plus may be a useful dietary adjunct for women looking to supplement a healthy diet during pregnancy.

SUGGESTED USE

Adults take 4 tablets daily at mealtime or as directed by a healthcare professional.

SIDE EFFECTS

Warning: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. In case of accidental overdose, call a doctor or poison control center immediately.

Warning: Consult your physician prior to using this product if you are pregnant or nursing, taking medications or have a medical condition. Discontinue use two weeks prior to surgery.

STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
