

# Proteo-Zymes

## Joint/Muscle Formula

*Enzyme Support for Strenuous Physical Activity*

### DESCRIPTION

Proteo-Zymes Joint/Muscle Formula is a systemic enzyme formulation containing a unique blend of enzymes that have been clinically studied to support numerous biological processes in the body.

### FUNCTIONS

Proteo-Zymes Joint/Muscle Formula is a systemic enzyme formulation containing a unique blend of enzymes that have been clinically studied to support numerous biological processes. The enzymes in Proteo-Zymes are designed to be digested and ultimately absorbed in the small intestine. From there, they travel directly into the blood and do not play a role in the direct digestion of food, with the exception of some support for the lower GI digestion of protein. Once absorbed, these enzymes travel throughout the body helping to break down specific protein molecules that may be directly involved in inflammation, poor circulation, pain and stiffness.

Unlike digestive enzymes, systemic proteolytic enzymes help support healthy joints, encouraging joint mobility by ensuring a normal, healthy response to inflammation. Systemic enzymes support healthy circulation through their fibrinolytic action, breaking down fibrin which may cause excess blood clotting within the cardiovascular system. Systemic enzymes support a healthy immune system by limiting the production of inflammatory cytokines. Finally, the mix of enzymes found in Proteo-Zymes Joint/Muscle Formula help support the end stage breakdown of proteins in the intestinal tract, thereby aiding in the digestion and absorption of proteins. Overall, this product helps support healthy cardiovascular, immune and joint function as well as helping support tissue repair. The Proteo-Zyme tablets are enteric coated which prevents the destruction of the enzymes by stomach acid and they are gluten free.

### INDICATIONS

Proteo-Zymes Joint/Muscle Formula contains powerful enzymes in an enteric coated tablet that may be useful after experiencing the stress of strenuous physical activity.

### FORMULA (WW #10321)

#### 3 Enteric-Coated Tablets Contain:

Systemic Enzyme Blend .....	840 mg
Pancreatin 8x.....	300 mg
Papain.....	180 mg
Bromelain.....	135 mg
Trypsin .....	72 mg
Chymotrypsin.....	3 mg
Rutin.....	150 mg

Other ingredients: Cellulose, vegetable stearin, d-calcium phosphate, cellulose gum, silica, and magnesium stearate.

This product contains NO yeast, wheat, gluten, preservatives, artificial colors or flavors.

### SUGGESTED USE

Adults take 3 enteric coated tablets 2 times a day between meals or as directed by a healthcare professional.

### SIDE EFFECTS

Warning: Do not use concomitantly with anti-coagulants or other pharmaceutical blood thinners. May enhance anti-coagulant effect.

### STORAGE

Store in a cool, dry place, away from direct sunlight. Keep out of reach of children.
