

# Citrus Bioflavonoids Complex

1,000 mg

## DESCRIPTION

Citrus Bioflavonoids Complex includes the group of important plant pigments found in foods such as oranges and lemons that possess strong antioxidant properties.

## FUNCTIONS

Bioflavonoids are a group of plant pigments that are responsible for the colors of many flowers and fruits. As the name implies, citrus bioflavonoids are found in citrus fruits such as lemon, orange, tangerine, and grapefruit.

Flavonoids are one of the most common groups of compounds in the human diet and in vitro studies suggest they possess antioxidant activity. The citrus bioflavonoids like hesperidin, rutin, and tangeritin may also possess an ability to increase levels of vitamin C and support healthy capillary permeability and blood flow.

## INDICATIONS

Citrus Bioflavonoids Complex may be a useful dietary supplement for those looking for antioxidant protection and help to support healthy capillary permeability flow and blood flow.

## FORMULA (WW #10037)

### 1 Vegetarian Tablet Contains:

Citrus Bioflavonoid Complex ..... 1,000 mg

Other Ingredients: cellulose, vegetable stearin, cellulose gum, magnesium stearate, and silica.

Citrus Bioflavonoids are also known as “Vitamin P” and include rutin and hesperidin complex.

This product contains NO sugar, salt, dairy, yeast, wheat, gluten, corn, soy, preservatives, artificial colors or flavors.

## SUGGESTED USE

Adults take 1 tablet, 1 to 3 times daily with meals, or as directed by a healthcare professional.

## SIDE EFFECTS

No adverse effects have been reported.

## STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
