

Curcumin Ultra

Liquid-Soluble Curcumin

Recommended by
Angie Svoboda, Pharm D.

DESCRIPTION

Curcumin Ultra is a revolutionary curcumin supplement featuring an innovative liquid-soluble delivery vehicle. This patented ingredient has been shown in clinical studies, to provide higher bioavailability than other curcumin/turmeric extract products in the market.¹

FUNCTIONS

Curcumin is a key curcuminoid found in turmeric that has been shown to have multiple health benefits. These benefits include supporting immune function, easing stress, relieving minor joint discomfort, reducing muscle soreness from exercise, aiding digestive function and many more.²

The challenge that is seen normally in using curcumin supplements is that the biologically active curcuminoids are normally not well-absorbed, resulting in a diminished benefit. Curcumin Ultra is one of the first curcumin supplements featuring the patented BioCurc[®] delivery system, which helps to offer significantly higher pharmacokinetic properties.

The root of the turmeric plant has been used in traditional medicine throughout Asia for thousands of years. Turmeric features therapeutic compounds known as curcuminoids. Curcuminoids, especially curcumin, act as powerful antioxidants in the body. Research suggests that curcumin has ubiquitous roles in the body, affecting many vital processes. For example, curcumin has been shown to support healthy heart, immune, brain, joint and digestive function.

Clinical studies using Curcumin Ultra with BioCurc have shown that BioCurc exhibits better absorption and greater bioavailability than other leading comparative products, such as Theracurmin[®], Meriva[®], BCM-95[®], C3 Complex[®], CurcuWIN[®], Longvida[®], Cavacurmin[®], CurQfen[®], HydroCurc[®], Acumin[®] and MicroActive[®] Curcumin.¹ The greater absorption and bioavailability of Curcumin Ultra may demonstrate exceptional benefits with:

- Support for the immune system
- Help with minor joint discomfort
- Relieving exercise-induced muscle soreness

- Supporting proper stress management and relaxation
- Antioxidant activity
- Maintenance of blood sugar levels
- Maintenance of blood lipid levels
- Digestive function

INDICATIONS

Curcumin Ultra may be a useful dietary supplement for individuals looking for an exceptional curcumin product to help support a healthy inflammatory response.

FORMULA (WW #10390)

Two Softgels Contain:

Calories	10
Total Fat	1 g
BioCurc [®]	800 mg

(rhizome extract; *Curcuma longa*)

Other Ingredients: Softgel (gelatin, sorbitol, glycerin, purified water, carob), coconut oil.

SUGGESTED USE

As a dietary supplement, adults take 2 softgels daily, or as directed by a healthcare professional.

SIDE EFFECTS

Warning: If you are pregnant, nursing or taking medication, consult your healthcare practitioner before use.

STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
