

Kids' Chewable Multi

With Probiotic

Recommended by
Angie Svoboda, Pharm D.

DESCRIPTION

Kids' Chewable Multi with Probiotic is a pleasant-tasting, chewable multiple vitamin/mineral formulation of nutrients demonstrated to be essential in the development of children. *Lactobacillus acidophilus* is included in the product to support GI and immune health.†

FUNCTIONS

Numerous studies demonstrate that many American children do not meet the recommended intake for most vitamins and minerals. Kids' Chewable Multi with Probiotics is designed to help children meet their requirements for essential nutrients such as vitamin A, vitamin C, zinc, D3, folate and B12. The minerals in this children's specialty formula are chelated for enhanced absorption. *Lactobacillus acidophilus* has been added to support GI and immune health.† The higher levels of vitamin C and zinc provide added support for the immune system, growth and development, as well as antioxidant protection.† The sugar alcohol xylitol does not promote tooth decay. In fact, the presence of xylitol offers an additional benefit in that xylitol has been shown to support ear health in children.† Kids' Chewable Multi with Probiotic is vegan, non-GMO and gluten-free.

INDICATIONS

Kids' Chewable Multi with Probiotic may be a beneficial dietary supplement for those concerned with insuring the nutritional intake of children.

SUGGESTED USE

As a dietary supplement, children 2 years and older chew 1 or 2 tablets daily with meals or as directed by a healthcare professional.

SIDE EFFECTS

Warning: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. In case of accidental overdose, call a doctor or poison control center immediately. Chewable tablets may be a choking hazard. Keep this product out of the reach of children.
