

Vitamin D3 Drops

2,000 IU

Recommended by
Angie Svoboda, Pharm D.

DESCRIPTION

Vitamin D3 Drops are a unique, neutral-tasting, sugar-free liquid providing 2,000 IU of vitamin D3 per drop in a base of safflower oil, olive oil and organic virgin coconut oil with added vitamin E to maintain freshness and stability.

FUNCTIONS

The role of vitamin D in helping to maintain bone density and strength is clear. It is required for the process of moving calcium through the intestinal wall into the bloodstream.

Vitamin D, also known as the sunshine vitamin, is an essential vitamin that plays many important roles in the proper functioning of the body. Though classified as a vitamin, vitamin D is actually a key regulatory hormone for calcium and bone metabolism. Adequate vitamin D status is essential for ensuring normal calcium absorption and maintenance of healthy calcium plasma levels. It is estimated that at least 40% of the U.S. population is vitamin D deficient. Therefore, supplementing the diet with extra vitamin D can be essential for optimal health. Vitamin D has also been recognized as being important for normal, healthy cell growth and function; normal, healthy insulin secretion; and healthy immune function.

INDICATIONS

Vitamin D3 Drops may be a useful dietary supplement for those individuals wishing to support bone health or who wish to elevate deficient levels of Vitamin D in their diet.

SUGGESTED USE

Adults take 1 drop, 2 to 3 times daily with meals or as directed by a healthcare professional.

FORMULA (WW #10326)

1 Drop (approx. 0.035 mL)

Vitamin D3 (cholecalciferol) 2,000 IU
Other ingredients: Safflower oil, olive oil, organic virgin coconut oil, and tocopherol (vitamin E). Contains tree nuts (coconuts).

Cholecalciferol (D3) is a natural, highly bioavailable form of vitamin D derived from lanolin.

This product contains NO sugar, salt, dairy, yeast, wheat, gluten, corn, soy, preservatives, artificial colors or flavors.

SIDE EFFECTS

Warning: This product is not intended for infants or small children. Vitamin D given in excessive levels to infants or small children can be harmful.

STORAGE

Store in a cool, dry place, away from direct sunlight. Keep out of reach of children.
